CHAIRMAN'S REVIEW

This was a year with rapid changes due to the devaluation of the Pak rupees by about 40%. This had an immediate impact on our costs as our raw materials and most of the packing materials are imported. Their prices were always in US Dollars – so the impact on costs was immediate.

Despite the steep rise in costs and our prices we have been able to improve our sales in both quantity and value. The new brands introduced “Naturelle” and “Ella” are finding their share in the market. Coffee did not fare too well so we have revamped our efforts for this year. Mushrooms have now been popularized and are in much demand. We sell all that we can produce. There are production glitches that cause frequent crop failures. However the devaluation of the rupee has helped as imported mushrooms have become very expensive.

The results for the year reflect all the above improvements.

Meanwhile the factory has now been thoroughly modernized and a new state of the art continuous refinery has been installed. This will give us better quality, larger quantities, and lower costs. Hopefully this will help us in future years.

The imposition of sales tax has had its obvious effect on the distribution network. Hopefully we will overcome these difficulties in the near future.

The board and management worked well together, and I am great full to our members for their continued support and encouragement.

Tahir Jahangir,
Chairman of the Board

Sales revenue for the year under review increased by 11.2% compared to the same period last year. This was a continuation of the trend seen in the first 3 quarters. The bulk of this increase is attributable to higher prices followed by higher volumes, especially in the cooking oil segment.

Gross margins for the year were mostly stable at 14.7% compared to 14.9% achieved last year. Compared to previous 3 quarters, this means an improving trend over the course of the year as gross margin at the half-year mark and 9-month mark were 14% and 14.3% respectively. This improvement was achieved as product prices were increased over time to offset the increase in higher raw material costs.

With stable margins at the gross level, higher revenue enabled us to record a 9.3% increase in gross profit for the year under review.

Although administrative costs increased by 22% for the year, a 7% decline in selling and distributions costs constrained the over-all increase in operating expenses to 1.4% over the same period last year. The highest contributors to the increase in operating costs were salaries & wages that went up both due to annual increments as well as additional hiring for our newer products. Selling and distribution cost mainly decreased because the management took a conscious decision to reduce the advertising spent for the year after the company faced reduced profitability during first half of the year when currency devaluations led to a sharp increase in raw material costs. It was deemed prudent to trim fixed costs by postponing some expenses where possible until margins stabilized at the gross level.

As a result of only a nominal increase in total operating expense together with higher revenue, our operating margins increased from 3.8% last year to 4.5% for the year under review, leading to a healthy 32% increase in operating profits.

Higher financial charges, higher contribution to WWF and WPPF, and higher other income combined with improved operating profits to increase profit before tax by 31.1% for the twelve months under review. The most notable change here was the sharp increase in interest expense, mainly mark-up on short term borrowings, as the company resorted to increased use of this mode of financing for its working capital needs and average interest rates rose by 343 basis points for the year under review.

Although the profit before tax was higher by 31%, the increase in tax provision for the year was only up by 15.2%. Consequently, the company posted a profit after tax of PKR 107.4 Million for the year, up 55.3% from PKR 69.2 Million posted last year.

The directors have noted that the edible oils industry is a low margin industry and hence comparatively speaking the company is showing satisfactory performance at the operating level; especially keeping in view the general state of the economy and an intensely competitive environment. The directors have no doubt what so ever that the company is a going concern.

We would like to confirm that the financial statements, prepared by the management of the listed company, fairly present its state of affairs and operations and proper books of account have been maintained according to the applicable and appropriate accounting policies and standards. A system of internal control has also been put in place to effectively implement and monitor the workings of the company to ensure compliance with all relevant policies and guidelines as per the Code of Corporate Governance issued by the SECP.

Future Outlook

Although the year under review was a challenging one with continued stiff competition from other players, unforeseen market uncertainties and ever increasing input costs, the management's focus on maintaining margins by investing in brands enabled it to both improve volume of our key products and enhance overall

profitability. However, the price control actions by the Government of Punjab upset the market balance, and at least for now constrained our ability to increase and/or hold prices in case of higher input costs. As we usually have to pass on oil cost decreases to the consumers due to market competition, any significant increase in oil prices could lead to depressed margins.

The management strongly feels that the improved financial performance of the Company is an ideal opportunity to explore and execute growth strategies in terms of revenue and profits. As such we plan to continue our current strategy of growing our higher margins products via increased marketing efforts and introduction of new products and product variants. While this is likely to push up operating costs in the medium term, it would pay dividends in the longer run.

Management is also continuing to upgrade its processing machineries to improve quality and lower costs. In this regard we will be bringing our new physical refining plant for bansapati online before the end of first quarter. This should serve to lower or production costs in the second half.

It should be noted that to continue our strategy of investing in brands and technology to drive sales, profitability and profits, we need to retain our earnings to finance the same or look for alternate and possible more expensive, sources of funding.

Acknowledgements

We should like to take this opportunity to thank our customers, suppliers and bankers for their continued support and cooperation towards the progress of the Company. We hope that this support would continue in the future as well.

We would also like to thank our dedicated and talented team of executives, staff and workers for the hard work put in during the period. We expect continued efforts from our employees to achieve even better results in the next year.

And last, but not the least, the management is thankful to the Board for its usual support and guidance in executing the vision and objectives set for the Company.

For and behalf of the Board

جائزے کے تحت سال کے دوران فروخت آمدنی میں گذشتہ سال کے اسی عرصے کے مقابلے میں 11.2 فیصد کا اضافہ ہوا ہے۔ یہ ابتدائی 3 سہ ماہیوں میں دیکھا گیا رجحان کا تسلسل تھا۔ اس اضافے کا زیادہ تر حصہ اعلی قیمتوں سے منسوب ہے جس کے بعد اعلی مقدار ، خاص طور پر کھانا پکانے سے متعلق تیل کے حصے ہے

اس سال کے مجموعی مارجن زیادہ تر 14.7 فیصد پر مستحکم رہا جبکہ اس سے پچھلے سال کے 14.9 فیصد کا اضافہ ہوا تھا۔ پچھلے 3 سہ ماہیوں کے مقابلے میں 6 ماہ اور 9 ماہ میں مجموعی مارجن بالترتیب 14% اور 14.3% رہا یہ بہتری اس لئے حاصل کی گئی ہے کہ وقت کے ساتھ ساتھ مصنوعات کی قیمتوں میں اضافہ کر کے اعلی خام مال کی قیمتوں میں اضافے کو پورا کیا گیا جاتا ہے۔

مجموعی سطح پر مستحکم مارجن کے ساتھ ، اعلی آمدنی کے تحت جاری سال کے دوران مجموعی منافع میں 9.3 فیصد اضافہ ریکارڈ کیا۔

اگرچہ اس سال کے دوران انتظامی اخراجات میں 22% کا اضافہ ہوا ہے ، فروخت اور تقسیم کے اخراجات میں 7% کمی نے آپریٹنگ اخراجات میں ہونے والے تمام اضافے کو گذشتہ سال مقابلے میں 1.4 فیصد تک محدود کر دیا۔ آپریٹنگ اخراجات میں اضافے میں سب سے زیادہ تعاون کرنے والے تنخواہوں اور اجرتوں میں شامل تھے جو سالانہ اضافے کے ساتھ ساتھ ہماری نئی مصنوعات کے اضافی خدمات لینے کی وجہ سے بڑھ گئے ہیں۔ فروخت اور تقسیم کی لاگت میں بنیادی طور پر کمی واقع ہوئی کیونکہ انتظامیہ نے سال کے پہلے 6 مہینوں کے دوران کمپنی کے منافع میں کمی کا سامنا کرنے کے بعد سال کے لئے خرچ کی جانے والی اشتهارات کو کم کرنے کا فیصلہ کیا جب کے کرنسی کی قدر میں کمی سے خام مال کی لاگت میں تیزی سے اضافہ ہوا۔ یہ سمجھا جاتا تھا کہ جہاں تک ممکن ہو کچھ اخراجات کو ملتوی کر کے مقررہ اخراجات کو کم کرنا ہو گا جب تک کہ منافع مجموعی سطح پر مستحکم نہ ہو جائے۔

آمدنی کے کل آپریٹنگ اخراجات میں صرف معمولی اضافے کے نتیجے میں ، ہمارے آپریٹنگ مارجن گذشتہ سال 3.8 فیصد سے بڑھ کر رواں سال 4.5 فیصد ہو گئے ، جس سے آپریٹنگ منافع میں صحت مند 32 فیصد اضافہ ہوا۔

اعلی مالی معاوضے ، WWF اور WPPF میں زیادہ شراکت ، اور بہتر آپریٹنگ منافع کے ساتھ مل کر اعلی آمدنی ٹیکس سے پہلے منافع میں بارہ مہینوں میں 31.1 فیصد اضافہ ہوا۔ یہاں سب سے قابل ذکر تبدیلی سود کے اخراجات میں تیز اضافہ تھا ، بنیادی طور پر مختصر مدت کے ادھار پر مارک اپ ، چونکہ اس کمپنی نے اس کے کام کرنے والے سرمائے کی ضروریات کے لئے مالی اعانت کے اس طریقے کے استعمال میں اضافہ کیا ہے اور سال کے اوسط سود کی شرح میں 343 بیس پوائنٹس کا اضافہ ہوا ہے۔

اگرچہ ٹیکس سے قبل 31 فیصد زیادہ منافع ہوا ، لیکن سال کے دوران ٹیکس کی فراہمی میں صرف 15.2 فیصد اضافہ ہوا۔ اس کے نتیجے میں ، کمپنی نے سال اس 107.4 ملین ٹیکس کے بعد منافع کمایا ، جو گذشتہ سال پوسٹ کیے گئے KR P 69.2 ملین سے 55.3 فیصد زیادہ ہے۔

ڈائریکٹرز نے نوٹ کیا ہے کہ خوردنی تیل کی صنعت ایک کم مارجن کی صنعت ہے، اور اس وجہ سے کمپنی آپریٹنگ سطح پر تسلی بخش کارکردگی دکھا رہی ہے۔ خاص طور پر معیشت کی عمومی حالت اور انتہائی مسابقتی ماحول کو مد نظر رکھتے ہوئے۔ ڈائریکٹرز کو کمپنی کے آپریشن جاری رہنے میں کوئی شک نہیں ہے۔

ہم اس بات کی تصدیق کرنا چاہیں گے کہ مالیاتی گوشوارے ، کمپنی کی انتظامیہ کے ذریعہ تیار کردہ ہے، قابل اطلاق اور مناسب اکاؤنٹنگ پالیسیوں اور معیارات کے مطابق اکاؤنٹ کی مناسب کتابیں منصفانہ طور پر پیش کیے۔ ایس ای سی پی کے جاری کردہ کوڈ آف کارپوریٹ گورننس کے مطابق تمام متعلقہ پالیسیوں اور رہنما اصولوں کی تعمیل کو یقینی بنانے کے لئے کمپنی کے کام کو موثر انداز میں نافذ کرنے اور نگرانی کے لئے اندرونی کنٹرول کا نظام بھی مرتب کیا گیا ہے۔

منافع کا انکشاف

زیر جائزہ سال کے دوران بورڈ آف ڈائریکٹرز نے 35% عبوری کیش ڈویڈنڈ لاگو قانون کے مطابق مقررہ مدت کے اندر اندر ہر 100 حصص کے لئے 35 روپے کی ادائیگی کا اعلان کیا ہے۔ بورڈ نے کمپنی کے تمام حصص یافتگان کو 30 جون 2019 کو ختم ہونے والے سال کے لئے 40% کی شرح سے حتمی نقد منافع کا بھی اعلان کیا ہے۔

کاروباری سماجی ذمہ داری

پنجاب آئل ملز جہاں کام کرتی ہے وہاں کی مقامی برادریوں کے بارے میں اپنی قانونی اور اخلاقی ذمہ داریوں کا علم رکھتی ہے۔ چونکہ بورڈ نے انتظامیہ کو صحت اور تعلیم کے شعبوں میں مقامی کمیونٹی کی خدمت کر کے اپنی کاروباری سماجی ذمہ داریوں کو استعمال کرنے کا اختیار دیا ہے۔ جبکہ معاشرے میں شراکت کرتے ہوئے پی او ایم ایل، یتیم بچوں کے لئے پناہ گاہوں، کی تمام کھانا پکانے کے تیل کی خریداری پر 50% کی خصوصی رعایت دے رہا ہے۔ پی او ایم ایل پاکستان نیشنل ہارٹ ایسوسی ایشن کے ساتھ بھی مفت دوائیں اور میڈیکل کیمپ مہیا کرنے اور عوام میں دل کی بیماریوں سے آگاہی بڑھانے میں تعاون کر رہی ہے۔

عملے کی ریٹائرمنٹ کے فوائد

کمپنی ایک غیر فنڈ سے چلنے والی گریپٹی اسکیم چلاتی ہے جس میں تمام ملازمین کو شامل کیا جاتا ہے جنکی کمپنی کے ساتھ خدمات کی مدت ایک سال سے زیادہ ہے۔ اس اسکیم کے تحت ذمہ داری کو پورا کرنے کے لئے ہر سال کے فنڈ مفروضہ کیے جاتی ہے۔ کمپنی مسلسل ملازمت کے ایک سال کے مکمل ہونے کے بعد کمپنی چھوڑنے پر ممبروں کو یکمشت گریپٹی ادا کرتی ہے۔

مستقبل کا نظارہ

اگرچہ زیر نظر سال ایک چیلنجنگ تھا جس کے ساتھ دوسرے حریفوں کا سخت مقابلہ رہا، غیر متوقع منڈی کی غیر یقینی صورتحال اور بڑھتی ہوئی لاگتوں کی وجہ سے ، برانڈز میں سرمایہ کاری کر کے انتظامیہ کی توجہ مارجن کو برقرار رکھنے پر ہے جس سے یہ ہماری اہم مصنوعات کی مقدار کو بہتر بنانے اور مجموعی منافع کو بڑھا سکتا ہے تاہم ، حکومت پنجاب کی جانب سے پرائس کنٹرول کے اقدامات سے مارکیٹ کا توازن پریشان ہے ، اور کم از کم ابھی زیادہ ان پٹ لاگتوں کی صورت میں قیمتوں میں اضافے اور / یا انعقاد کی ہماری قابلیت کو محدود کر دیا گیا ہے۔ چونکہ ہمیں عام طور پر مارکیٹ میں مسابقت کی وجہ سے صارفین کے لئے تیل کی قیمت میں کمی کا سامنا کرنا پڑتا ہے ، تیل کی قیمتوں میں کوئی نمایاں اضافہ افسردگی کے مارجن کا باعث بن سکتا ہے۔

انتظامیہ کو سختی سے محسوس ہوتا ہے کہ کمپنی کی بہتر مالی کارکردگی محصول اور منافع کے لحاظ سے ترقی کی حکمت عملیوں کو دریافت کرنے اور اس پر عمل درآمد کرنے کا ایک بہترین موقع ہے۔ اس طرح ہم مارکیٹنگ کی بڑھتی ہوئی کوششوں اور نئی مصنوعات اور مصنوعات کی مختلف حالتوں کے تعارف کے ذریعہ اپنی اعلیٰ مارجن مصنوعات بڑھانے کی اپنی موجودہ حکمت عملی کو جاری رکھنے کا ارادہ رکھتے ہیں۔ اگرچہ اس سے درمیانی مدت میں آپریٹنگ اخراجات میں اضافہ ہونے کا امکان ہے ، لیکن اس سے طویل عرصے میں منافع ادا ہوگا۔

معیار اور کم اخراجات کو بہتر بنانے کے لئے انتظامیہ اپنی پروسیسنگ مشینریوں کو اپ گریڈ کرنا جاری رکھے ہوئے ہے۔ اس سلسلے میں ، ہم پہلی سہ ماہی کے اختتام سے قبل بانسپتی کے لئے اپنا نیا کارخانہ لائیں گے۔

واضح رہے کہ فروخت ، منافع اور منافع کو بڑھانے کے لئے برانڈز اور ٹکنالوجی میں سرمایہ کاری کرنے کی اپنی حکمت عملی کو جاری رکھنے کے لئے ، ہمیں اپنی کمائی کو اسی طرح کی مالی اعانت کے لئے برقرار رکھنے یا متبادل اور فنڈنگ کے ذرائع تلاش کرنے کی ضرورت ہے۔

اعتزافات

ہمیں اپنے صارفین کا شکریہ ادا کرنے کے لئے یہ موقع اٹھانا چاہیں، سپلائرز اور بینکر کی ترقی کی طرف ان کی مسلسل مدد اور تعاون۔ ہم امید کرتے ہیں کہ یہ تعاون مستقبل میں بھی جاری رہے گا۔

**Independent Auditors' Review Report of Punjab Oil Mills Limited
Review Report on Statement of Compliance contained in
Listed Companies (Code of corporate governance)
Regulations, 2017**

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of **Punjab Oil Mills Limited** (the Company) for the year ended 30 June 2019 in accordance with the requirements of regulation 40 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 30 June 2019.

**Independent Auditor's Report
To the members of Punjab Oil Mills Limited
Report on the Audit of the Financial Statements**

Opinion

We have audited the annexed financial statements of Punjab Oil Mills Limited (the Company), which comprise the statement of financial position as at June 30, 2019, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2019 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matters:

Key audit matters

1) Revenue

(Reference note No. 31)

The Company primarily generates revenue from sale of Cooking oil, Ghee, Specialty Fats, Soap and other products. During the year the company's revenue exceeds Rs. 5 billion which is 150 % more than the total assets.

We identified recognition of sales as a key audit matter because sales is one of the key performance indicator of the Company and gives rise to an inherent risk of misstatement to meet expectations or targets.

2) First time adoption of IFRS 9 – Financial Instruments

(Reference note No. 50.02)

The Company has adopted IFRS 9 with effect from 01 July 2018. The new standard requires the Company to make provision for financial assets (trade debts) using Expected Credit Loss (ECL) approach as against the Incurred Loss Model previously applied by the Company.

Determination of ECL provision for trade debts requires significant judgement and assumptions including consideration of factors such as historical credit loss experience and forward-looking macro-economic information.

We have considered the first-time application of IFRS 9 requirements as a key audit matter due to significance of the change in accounting methodology and involvement of estimates and judgments in this regard.

How the matter was addressed in our audit

Our audit procedures amongst others included the following:

- Evaluated management controls over revenue and checked their validation including controls to ensure that majority sales are made to tax filers.

- Performed verification of sales with underlying documentation including gate pass, delivery challan, bargain docket, stock register and sales invoice.
- Obtained confirmations from debtors on sample basis.
- Recalculated the commission and discounts as per Company's policy and performed verification over special discount on sample basis if any exists.
- Analyzed market by comparing Company's sales volume with published data.
- Ensured that presentation and disclosures related to revenue are being addressed appropriately.

Our key procedures to review the application of IFRS 9 included, amongst others, review of the methodology developed and applied by the Company to estimate the ECL in relation to trade debts. We also considered and evaluated the assumptions used in applying the ECL methodology based on historical information and qualitative factors as relevant for such estimates.

Further, we assessed the integrity and quality of the data used for ECL computation based on the accounting records and information system of the Company as well as the related external sources as used for this purpose.

We checked the mathematical accuracy of the ECL model by performing recalculation on test basis.

In addition to above, we assessed the adequacy of disclosures in the financial statements of the Company regarding application of IFRS 9 as per the requirements of the above standard.

3) Tax contingencies

(Reference note No. 17)

Various tax matters are pending adjudication at various levels with the taxation authorities and other legal forums. The tax contingencies require the management of the Company to make judgements and estimates in relation to the interpretation of tax laws and regulations and the recognition and measurement of any provisions that may be required against such contingencies. Due to inherent uncertainties and the time period such matters may take to resolve, the management judgement and estimates in relation to such contingencies may be complex and can significantly impact the financial statements.

For such reasons we have considered tax contingencies as a key audit matter.

Our key audit procedures in this area included, amongst others, a review of the correspondence of the Company with the relevant tax authorities and tax advisors including judgements or orders passed by the competent authorities.

We involved internal tax experts to assess and review the management's conclusions on contingent tax matters and evaluated whether adequate disclosures have been made in note 17 to the financial statements.

Further-more we have taken legal advice from legal advisor of the Company.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- (a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- (b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- (c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- (d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditors' report is Shahid Mehmood.

4 BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention except for certain items of property, plant and equipment that are stated at revalued amounts, employee benefits at present value and investment in associates on equity basis. In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

5 JUDGMENT, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with approved accounting standards which requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The estimates and related assumptions are reviewed on an ongoing basis. Accounting estimates are revised in the period in which such revisions are made and in any future periods affected.

Significant management estimates in these financial statements relate to the useful life of property, plant and equipment, provisions for staff retirement benefits, doubtful receivables, slow moving inventory and taxation. However, the management believes that the change in outcome of estimates would not have a material effect on the amounts disclosed in the financial statements.

Judgment made by management in the application of approved standards that have significant effect on the financial statements and estimates with a risk of material adjustment in subsequent year are as follows:

5.01 Depreciation method, rates and useful lives of property, plant and equipment

The management of the Company reassesses useful lives, depreciation method, and rates for each item of property, plant and equipment annually by considering expected pattern of economic benefits that the Company expects to derive from those items.

5.02 Fair value of financial instruments having no active market

Fair value of financial instruments having no active market is determined using discounted cash flow analysis after incorporating all factors that market participants would consider in setting a price and using inputs that reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument.

5.03 Taxation

The Company takes into account income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by tax department at the assessment stage and where the Company considers that its view of items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

5.04 Provisions

Provisions are based on best estimate of the expenditure required to settle the present obligation at the reporting date, that is, the amount that the Company would rationally pay to settle the obligation at the reporting date or to transfer it to a third party.

5.05 Revaluation of property, plant and equipment

Revaluation of property, plant and equipment is carried out by independent professional valuers. Revalued amounts of non-depreciable items are determined by reference to local market values and that of depreciable items are determined by reference to present market and depreciated replacement values.

5.06 Stores, spares and loose tools and stock-in-trade

The Company estimates the net realizable values of its stores, spares and loose tools and stock-in-trade to assess any diminution in the respective carrying values.

5.07 Staff retirement benefit obligations

The present values of these obligations depend on a number of factors that are determined on actuarial basis, using a number of assumptions. Any change in these assumptions will impact the carrying amounts of these obligations. The underlying assumptions and the present value of these obligations are disclosed in notes 7.03 and 12.01 respectively.

5.08 Expected credit losses

The Company recognizes an impairment gain or loss in the statement of profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

6 FUNCTIONAL AND PRESENTATION CURRENCY

These financial statements are prepared in Pak Rupees which is the Company's functional currency.

7 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**7.01 Tangible fixed assets and depreciation****a) Owned**

Property, plant and equipment (except leasehold land, building on leasehold land, plant, machinery and equipment, laboratory equipments and, scales and weigh bridge) are stated at cost less accumulated depreciation and any accumulated impairment losses. Leasehold land are stated at revalued amounts and building on leasehold land, plant, machinery and equipment, laboratory equipments and, scales and weigh bridge are stated at revalued amount, being its fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Residual value and the useful life of assets are reviewed annually at each financial year end and adjusted if impact on depreciation is significant.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the year in which these are incurred.

b) Depreciation

Depreciation on property, plant and equipment (except leasehold land) is charged to statement of profit or loss by applying the reducing balance method so as to write off the cost/depreciable amount of the assets over their estimated useful lives at the rates specified in note 18 to the financial statements. Depreciation on additions is charged from the month in which the asset was available for use up to the month prior to disposal. The residual values, depreciation method and useful lives of property, plant and equipment are reviewed by the management, at each financial year-end and adjusted if appropriate.

c) De-recognition

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from its use. Disposal of an asset is recognized when significant risk and rewards, incidental to the ownership of an asset, have been transferred to the buyer. Gains and losses on disposal of assets are taken to the statement of profit or loss, and the related surplus on revaluation of property, plant and equipment, if any, is transferred directly to retained earnings/unappropriated profits.

d) Surplus on revaluation

Surplus on revaluation of revalued assets is credited through OCI to the surplus on revaluation account. Revaluation is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. To the extent of the incremental depreciation charged on the revalued assets, the related surplus on revaluation of property, plant and equipment (net of deferred taxation, if any) is transferred directly to retained earnings/unappropriated profits.

7.02 Intangible assets

These are stated at cost less accumulated amortization and impairment losses, if any.

Costs associated with maintaining these assets are charged to the statement of profit or loss as and when incurred. However, costs that are directly attributable to the identifiable asset and have probable economic benefits exceeding one year, are recognised as intangible asset. Direct costs include purchase cost of the asset, salaries and other service benefits of staff deployed towards development of the asset and other related overheads. Expenditure incurred in respect of design, construction and testing of an intangible asset are also added to the carrying amount of that asset.

Expenditure which enhances or extends the performance of the asset beyond its original specifications is recognised as a capital improvement and added to the original cost of the asset.

Intangible asset is estimated to have definite useful life and is amortised from the month of purchase, made available for use or extended support cost is incurred, using the straight line method over specified rates.

7.03 Staff Retirement Benefits

Defined Benefit Plan

The company operates an un-funded gratuity scheme covering all employees whose period of services with the company is more than one year. Provision is made annually to cover the liability under the scheme. The company pays a lump-sum gratuity to members on leaving the company after completion of one year of continuous service. The benefit is calculated as follows:

Last drawn gross salary x Number of completed years of services

Six or more months of service in excess of completed years of services is counted as one complete year. However, less than six month of services is ignored.

During the year, the company assessed its liabilities under the gratuity scheme through actuarial valuation under IAS-19 (Employee Benefits).

Amounts arising as a result of 'Remeasurement', representing the actuarial gains and losses are recognised in the statement of financial position immediately, with a charge or credit to 'Other Comprehensive Income' in the periods in which they occur.

As per actuarial valuation carried out as at 30 June 2019, the following significant assumptions were used:

	2019	2018
Discount factor used	14.25%	9.00%
Expected rate of eligible salary increase in future years	13.25%	8.00%
Actuarial valuation method	Projected Unit Credit Method	

7.04 Trade and other payables

Financial liabilities

These are classified as 'financial liabilities at amortized cost'. On initial recognition, these are measured at cost,, being their fair value at the date the liability is incurred, less attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost using the effective interest method, with interest recognized in profit or loss.

Non-financial liabilities

These, both on initial recognition and subsequently, are measured at cost.

7.05 Dividend and appropriation to reserves

Dividend and appropriation to reserve are recognized in the financial statements in the period in which they are approved by the shareholders and therefore, they are accounted for as non-adjusting post statement of financial position event.

7.06 Taxation

Current and prior years:

Provision for current taxation is based on applicable current rates of taxation after taking into account tax credits and rebates available, if any, under the provisions of Income Tax Ordinance, 2001. The tax charge also includes adjustments, where necessary, relating to prior years which arise from assessments finalized during the year.

Deferred:

Deferred tax is accounted for using the statement of financial position liability method in respect of all temporary differences arising from differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of the taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profit shall be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized. Income subject to final tax regime is also considered in accordance with the requirements of Technical Release-27 of Institute of Chartered Accountants of Pakistan.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the statement of profit or loss, except in the case of items credited or charged to equity in which case it is included in equity.

7.07 Capital work in progress

Capital work in progress is stated at cost less identified impairment loss, if any, and includes the expenditures on material, labour and appropriate overheads directly relating to the construction, erection or installation of an item of property, plant and equipment. These costs are transferred to property, plant and equipment as and when related items become available for intended use.

7.08 Investment in related parties

Investment in associated companies where the company has significant influence but not control over the financial and operating policies is accounted for using equity basis of accounting under which the investment in associate is initially recognized at cost and the carrying amounts are increased or decreased to recognize the company's share of profit or loss for the associate after the date of acquisition, less impairment losses, if any. The Company's share of profit or loss of the associate is recognized in the Company's profit or loss. Distributions received from associated companies reduce the carrying amount of the investment. Adjustments to the carrying amounts are also made for changes in the associate's equity that have not been recognized in the associate's profit or loss. The Company's share of those changes is recognized directly in equity of the Company.

Gain/(loss) on sale of above investments, if any, are recognized in the period of sale. The carrying amount of the investment is tested for impairment, by comparing its recoverable amount (higher of value in use and fair value less cost to sell) with its carrying amount and loss, if any, is recognized in statement of profit or loss.

7.09 Stores, spare parts and loose tools

Stores, spares and loose tools are stated at lower of cost and net realizable value. The cost of inventory is based on weighted average cost. Items-in-transit are stated at cost accumulated up to the statement of financial position date. The Company reviews the carrying amount of stores, spares and loose tools on a regular basis and provision is made for obsolescence, if any. Impairment is also made for slow moving items identified as surplus to the requirements of the Company.

7.10 Stock in trade

These are valued at lower of cost and net realizable value. Cost of raw materials and components represents invoice value plus other charges paid thereon. Cost of inventory is based on weighted average cost. Cost in relation to work-in-process and finished goods represents direct cost of raw materials, wages and appropriate manufacturing overheads. Goods-in-transit are stated at cost accumulated up to the statement of financial position date.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

The Company reviews the carrying amount of stock-in-trade on a regular basis and as appropriate, inventory is written down to its net realizable value or provision is made for obsolete items, if any.

7.11 Impairment**Financial assets**

The Company recognizes loss allowances for ECLs in respect of financial assets measured at amortized cost on date of initial recognition. The amount of expected credit loss is updated on each reporting date to reflect the changes in credit risk since initial recognition of the respective financial assets.

Impairment is recognized at an amount equal to lifetime expected credit losses for financial assets for which credit risk has increased significantly since initial recognition. For financial assets for which credit risk is low, impairment is recognized at an amount equal to 12 months' expected credit losses, with the exception of trade debts contract assets and lease receivables, for which the Company recognizes lifetime expected credit losses estimated using a provision matrix. The provision matrix is based on the Company's historical credit loss experience, adjusted for factors that are specific to counter parties, general economic conditions and an assessment for both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. All impairment losses are recognized in profit or loss. An impairment is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss is reversed only to the extent that the financial asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of amortization. If no impairment loss had been recognized.

The Company writes off a financial asset when there is information indicating that the counter party is in severe financial condition and there is no realistic prospect of recovery. Any recoveries made post write-off are recognized in profit or loss.

Non-financial assets

The carrying amount of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any objective evidence that an asset or group of assets may be impaired. If any such evidence exists, the asset's or group of assets' recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is the higher of value in use and fair value less cost to sell. Impairment losses are recognized in the statement of profit or loss.

7.12 Trade debts and other receivables

Financial assets

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

Non-financial assets

These, both on initial recognition and subsequently, are measured at cost.

7.13 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and cash with banks in current and saving accounts.

7.14 Foreign currency transactions

Transactions in foreign currencies are accounted for in Pakistani Rupees at the foreign exchange rates prevailing on the date of the transaction. Monetary assets and liabilities in foreign currencies are re-translated into rupees at the foreign exchange rates approximating those prevailing at the reporting date. Exchange differences, if any, are charged instatement of profit or loss.

7.15 Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer. Revenue from operations of the Company are recognized when the goods are provided, and thereby the performance obligations are satisfied. The Company's contract performance obligations are fulfilled at the point in time when the goods are dispatched to the customer. Invoices are generated and revenue is recognized at that point in time, as the control has been transferred to the customers and is reduced for allowances such as taxes, duties, commissions, sales returns and discounts. Revenue from other sources is recognized on the following basis:

- Interest income on deposits with banks and other financial assets is recognized on accrual basis.
- Dividend income is recognized when the Company's right to receive dividend has been established.

7.16 Borrowing costs

Borrowing costs are charged to income as and when incurred except to the extent of costs directly attributable to the acquisition, construction or production of qualifying assets that are capitalized as part of the cost of relevant asset.

7.17 Financial instruments

Recognition

A financial instrument is recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

(i) Initial Measurement

The Company classifies its financial assets in to following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

(ii) Subsequent Measurement

Debt Investments at FVOCI: These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss. Other net gains and losses are recognized in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity Investments at FVOCI: These assets are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognized in profit or loss.

Financial assets measured at amortized cost: These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.

Financial liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss. Any gain or loss on de-recognition is also recognized in the statement of profit or loss.

Financial liabilities are derecognized when the contractual obligations are discharged or cancelled or have expired or when the financial liability's cash flows have been substantially modified.

7.18 De-recognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

7.19 Offsetting of financial assets and financial liabilities

Sensitivity analysis for actuarial assumptions

The calculation of defined benefit obligation is sensitive to assumptions set-out in note 7.03. The following table summarizes how the net defined benefit obligation at the end of the reporting period would have increased/ (decreased) as a result of change in respective assumptions.

	Change in assumptions	Increase Rupees	Decrease Rupees
Discount rate	1%	92,940,899	96,932,182
Increase in future salaries	1%	96,975,034	92,870,036
		2019	2018
Expected mortality rate		SLIC 2001 - 2005	SLIC 2001 - 2005
Retirement assumptions		60 years	60 years

A change in expected remaining working lives of employees is not expected to have a material impact on the present value of defined benefit obligation. Accordingly, the sensitivity analysis for the same has not been carried out.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of defined benefit obligation as at the reporting date has been calculated using projected unit credit method, which is the same as that applied in calculating the defined benefit obligation to be recognized in these financial statements.

Risk factors

The defined benefit plan exposes the Company to the following actuarial risks:

Interest risk: The discount rate used in determination of present value of defined benefit obligation has been determined by reference to market yield at the reporting date on Pakistan Investment Bonds since there is no deep market in long term corporate bonds in Pakistan. An increase in market yield resulting in a higher discount rate will decrease in the defined benefit liability.

Longevity risk: The present value of defined benefit obligation is calculated by reference to the best estimate of the expected remaining working lives of the employees. An increase in the expected remaining working lives will increase the defined benefit obligation. However, the increase is not expected to be material.

Salary risk: The present value of defined benefit obligation is calculated by reference to future salaries of plan participants. An increase in salary of plan participants will increase the defined benefit obligation.

The average duration of the defined benefit obligation is 2 years.

Fair values of financial assets and liabilities

- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is going concern and there is no intention or requirements to curtail materially the scale of its operation or to undertake a transaction on adverse terms.
- The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.

Fair value hierarchy

Following are three levels in fair value hierarchy that reflects the significance of the inputs used in measurement of fair values of financial instruments.

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for asset or liability that are not based on observable market data (unobservable inputs).

41.01 Financial Instruments measured at fair value

41.01.01 Recurring fair value measurements

There are no recurring fair value measurements as at the reporting date.

41.01.02 Non-recurring fair value measurements

There are no non-recurring fair value measurements as at the reporting date.

41.02 Financial Instruments not measured at fair value

The management considers the carrying amount of all financial instruments not measured at fair value at the end of each reporting period to approximate their fair values as at the reporting date.

41.03 Assets and liabilities other than financial instruments

41.03.01 Recurring fair value measurements

For recurring fair value measurements, the fair value hierarchy and information about how their fair values are determined are as follows:

Assets	Level 1	Level 2	Level 3	30-Jun-19 Rupees
Buildings	-	94,966,206	-	94,966,206
Plant and machinery	-	171,197,660	-	171,197,660

Assets	Level 1	Level 2	Level 3	30-Jun-18 Rupees
Buildings	-	105,518,007	-	105,518,007
Plant and machinery	-	184,765,648	-	184,765,648

The Company does not hold any instrument which could be included in Level 1 and Level 3. For fair value measurements categorised into Level 2 the following information is relevant:

	Valuation technique	Significant inputs	Sensitivity
Buildings	Cost approach that reflects the cost to the market participants to construct assets of comparable utility and age, adjusted for obsolescence and depreciation. There was no change in valuation technique during the year.	Estimated construction costs and other ancillary expenditure.	A 5% increase in estimated construction and other ancillary expenditure would result in a significant increase in fair value of buildings by Rs. 4.75 million (2018: Rs. 5.28 million).
Plant and machinery	Cost approach that reflects the cost to the market participants to acquire assets of comparable utility and age, adjusted for obsolescence and depreciation. There was no change in valuation technique during the year.	Estimated purchase price, including import duties and non-refundable purchase taxes and other costs directly attributable to the acquisition or construction, erection and installation.	A 5% increase in estimated purchase price, including import duties and non-refundable purchase taxes and other directly attributable costs would result in a significant increase in fair value of plant and machinery by Rs. 8.56 million (2018: Rs. 9.24 million).

There were no transfers between fair value hierarchies during the year.

41.03.02 Non-recurring fair value measurements

There are no non-recurring fair value measurements as at the reporting date.

The Company has investment in associate which is stated at cost (refer note21).

42 FINANCIAL INSTRUMENTS

42.01 Financial risk factors

The Company’s activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company’s overall risk management programme focuses on having cost effective funding as well as to manage financial risk to minimize earnings volatility and provide maximum return to shareholders.

Risk management is carried out by the Company’s finance department under policies approved by the Board of

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company imports edible palm oil, tin plates and some items of chemicals and exports cooking oil and is exposed to currency risk, primarily with respect to liabilities denominated in US Dollars.

The Company manages its currency risk by close monitoring of currency markets. However, the Company does not hedge its currency risk exposure.

At reporting date, if the Pakistani Rupee had weakened by 5% (2018: 5%) against the US Dollar / Dirham with all other variables held constant, post-tax profit for the year would have been lower by Rs. 7,874,448 (2018: 1,543,189) mainly as a result of foreign exchange losses on translation of US Dollar-denominated trade payables.

The company's exposure to currency risk is as follows:

	2019		2018	
	Rupees	Dirham	Rupees	Dirham
Statement of financial position items				
Advances to suppliers	38,233,534	874,309	-	-

Letter of credit	111,809,930	696,093	16,705,000	137,224

	2019 Rupees	2018 Rupees
The following significant exchange rates were applied during the year:		
Rupees per US Dollar		
Reporting date rate	160.63	121.73
Average rate	147.65	110.07
Rupees per Dirham		
Reporting date rate	42.03	32.34
Average rate	40.19	33.11

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's interest rate risk arises from short term borrowings and interest bearing assets. Borrowings obtained at variable rates exposes the company to cash flow interest rate risk.

At the statement of financial position date the interest rate profile of the Company's interest bearing financial instruments was:

Note	2019 Rupees	2018 Rupees
Floating rate instrument		
Financial liabilities		
Short term borrowings	123,944,702	86,314,308
Financial assets		
Bank balances- saving accounts	3,847,331	12,712,025

Cash flow sensitivity analysis for floating rate

If interest rate at the year end date, fluctuates by 1% higher/lower with all other variables held constant, profit after taxation for the year would have been Rs. 1,200,974 lower/higher (2018: 736,023 lower/higher), mainly as a result of higher/lower interest income/expense on floating rate borrowings and bank balances. This analysis is prepared assuming the amounts of liabilities outstanding / assets deposits at the statement of financial position dates were outstanding / deposits for the whole year.

The company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss.

Therefore, a change in interest rate at the date of financial position would not affect profit or loss of the company.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company is not exposed to equity securities price risk as its investment is in non-listed securities.

(b) Credit risk

Credit risk represents the risk of financial loss being caused if counter parties fail to discharge an obligation.

Credit risk arises from deposits with banks, trade debts, loans and advances, deposits and other receivables. The company seeks to minimize the credit risk exposure through having exposures only to customers considered credit worthy and obtaining securities where applicable. Where considered necessary, advance payments are obtained from certain parties. Out of the total financial assets of Rs. 772,040,767 (2018: Rs. 715,715,060), the maximum exposure to credit risk amounts to Rs. 772,040,767 (2018: Rs. 708,464,486).

Geographically, there is no concentration of credit risk.

The maximum exposure to credit risk for trade debts, loans and receivables at the reporting date by type of parties was:

Others	285,314,996	13,627,502

The aging of loans and receivables at the reporting date was:

More than one year	38,602,038	52,000,421
	772,040,767	696,246,136

The Company monitors the credit quality of its financial assets with reference to historical performance of such assets and available external credit ratings. The carrying values of financial assets which have not impaired are as under:

Note	2019 Rupees	2018 Rupees
Long term deposits	31,887,500	26,387,500
Trade debts	702,282,920	639,667,499

Bank balances	14,381,010	28,823,714

The credit quality of receivables can be assessed by considering reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information. The credit quality of Company's bank balances can be assessed with reference to external credit ratings as follows:

(c) **Liquidity risk**

Liquidity risk represents the risk that the company will encounter difficulties in meeting obligations associated with financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities. Due to growing nature of the business, the company maintains flexibility in funding by maintaining committed credit lines available.

The table below analyses how management monitors net liquidity based on details of the remaining contractual maturities of financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

43 CAPITAL RISK MANAGEMENT

The Company’s objectives when managing capital are to safeguard the Company’s ability to continue as a going concern in order to provide returns for shareholders, benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Company is not subject to any externally imposed capital requirements.

The Company manages its capital structure and makes adjustment to it in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

However, the Company can finance its operations through equity, loans and management of working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk. Net debt is calculated as total borrowings as referred to in note "the notes to the financial statements" less cash and bank balances. Total capital employed includes 'total equity' as shown in the statement of financial position and 'net debt'. The gearing ratio as at 30 June 2019 and as at 30 June 2018 is as follows:

50 CHANGE IN ACCOUNTING POLICIES

50.01 IFRS 15 'Revenue from Contracts with Customers'

On 28 May 2014, the International Accounting Standards Board ("IASB") issued International Financial Reporting Standards ("IFRS") 15 "Revenue From Contracts with Customers" which provides a unified five-step model for determining the timing, measurement and recognition of revenue. The focus of the new standard is to recognize revenue as performance obligations are made rather than based on the transfer of risk and rewards. IFRS 15 includes a comprehensive set of disclosure requirements including qualitative and quantitative information about contracts with customers to understand the nature, amount, timing and uncertainty of revenue. The standard supersedes IAS 18 "Revenue", IAS 11 "Construction Contracts" and the number of revenue related interpretations.

The Company manufactures and contracts with customers for the sale of Ghee, Coffee, Vegetable Oil, Soap, Fats and Gas which generally include single performance obligation. The management has concluded that revenue from sale of goods be recognised at the point in time when control of the asset is transferred to the customer, which is when the goods are dispatched to the customer. Invoices are generated and revenue is recognised at that point in time, as the control has been transferred to the customers. The above is generally consistent with the timing and amounts of revenue the Company recognised in accordance with the previous standard, IAS 18. Therefore, the adoption of IFRS 15 which replaced IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations, did not have an impact on the timing and amounts of revenue recognition of the Company. Therefore, adoption of IFRS 15 at 01 July 2018, does not have an effect on the financial statements of the Company.

50.02 IFRS 9 'Financial Instruments'

IFRS 9 replaced the provisions of IAS 39 'Financial Instruments: Recognition and Measurement' that relates to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting. Changes in accounting policies resulting from adoption of IFRS 9 have been applied retrospectively. The details of new significant accounting policies adopted and the nature and effect of the changes to previous accounting policies are set out below:

(i) Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables, held for trading and available for sale. IFRS 9, classifies financial assets in the following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

The following assessments have been made on the basis of the facts and circumstances that existed at the date of initial application:

- The determination of business model within which a financial asset is held; and
- The designation and revocation of previous designation of certain financial assets as measured at FVTPL.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at fair value through profit or loss:

- it is held within business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

- Its contractual terms give rise on specified dates to cash flows that are solely Payments of principal and interest on the principal amount outstanding.

For assets measured at fair value, gains and losses will either be recorded in the statement of profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

The adoption of IFRS 9 did not have a significant effect on the Company's accounting policies related to financial liabilities.

The accounting policies that apply to financial instruments are stated in note 7.16 to the financial statements.

The following table explain the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Company's financial assets as at 01 July 2018:

Financial Assets - 2018	Note	Classification		Carrying amount	
		IAS 39	IFRS 9	IAS 39	IFRS 9
Investment in associate	21	FVTPL	FVTPL	-	-
Trade debts	25	Loans and receivables	Amortized cost	639,667,499	639,667,499
Loans, Deposits and other receivables	26,27	Loans and receivables	Amortized cost	7,208,845	7,208,845
Bank balances	30	Loans and receivables	Amortized cost	28,823,714	28,823,714
Total				675,700,058	675,700,058

(ii) Impairment

IFRS 9 replaces the ‘incurred loss’ model in IAS 39 with an ‘expected credit loss’ (ECL) model. IFRS 9 introduces a forward looking expected credit losses model, rather than the current incurred loss model, when assessing the impairment of financial assets in the scope of IFRS 9. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade and other receivables. Impairment losses related to trade and other receivables, are presented separately in the statement of profit or loss. Trade and other receivables are written off when there is no reasonable expectation of recovery. Management used actual credit loss experience over past years to base the calculation of ECL on adoption of IFRS 9. Given the Company’s experience of collection history and no historical loss rates / bad debts and normal receivable aging, the move from an incurred loss model to an expected loss model has not had an impact on the financial position and / or financial performance of the Company.

Loss allowance on bank balances is measured at 12 months expected credit losses. Since this asset is short term in nature, therefore no credit loss is expected on these balances.
